Dear Colleague

Say No to Car Park Charges at Work

The result of the recent consultation with members was **3 to 1 in favour** of some form of Industrial Action (short of Strike Action) over LCC's car park charging proposals.

Unison are currently considering what form of Industrial Action to take and are seeking urgent approval from our Regional and National offices to conduct a formal ballot of members.

In addition to this we will be urging all members to write to their County Councillor and MP about this pay cut and a draft letter will be circulated as soon as possible.

There will also be a poster and leaflet campaign to link in with the ballot and the letters to Councillors.

Full details of the action proposed will be included with the ballot papers so members will be very clear what they are voting for.

This campaign will not succeed without your involvement, so we urge you to give it you full support.

Carol Lukey
Branch Secretary
