

CAR PARKING

This is an update on the car parking proposals as a result of letters issued yesterday and Wednesday and reinforces the advice previously circulated.

1. Notice of the intention to ballot for Industrial Action and the workplaces involved will be sent to the employer today – Friday 25.1.08. This is to comply with current legislation covering Industrial Action.
2. Further requests for legal advice surrounding contractual implications as a result of the registration communications have been sent to our Solicitors.
3. Members are strongly recommended NOT to register either for salary sacrifice or simply access to parking at this moment in time. The point of any action short of strike is disruption and employees attempting to gain access after the barriers are installed without registration will cause disruption.
4. Application for salary sacrifice does NOT have to be done now – this can be done at any time for a whole host of reasons and the facility will not be lost if members find the charge acceptable and wish to sign up at a later date.
5. If you have any queries please e-mail unison.enquiries@lancashire.gov.uk or contact the Branch Office.
6. Finally, please encourage non members to join and take part in the action.
